

QUALITY, HEALTH, SAFETY & ENVIRONMENT POLICY

Transgulf Readymix is committed to provide the highest quality concrete and services at competitive rates, which meet agreed Customer requirement & expectations ensuring human health, operational safety, environmental protection, quality enhancement and community goodwill in accordance with its context.

Transgulf Readymix line management has a leadership role in communication, implementation and ensuring compliance with QHSE polices & standards.

Accordingly, the active commitment to and accountability for QHSE is expected from all stakeholders.

Transgulf Readymix is committed to:

- Protect and strive for continual improvement of the health, safety and security of our people and visitors at all times.
- Eliminate the causes of quality non-conformances and prevent ill health, injuries and accidents.
- Eliminate hazards and reduce risks by implementing appropriate and effective control measures.
- Meet specified customers requirements and ensure continuous customers satisfaction.
- Fulfill the legal and other compliance obligations related to QHSE.
- Set QHSE performance objectives, measures results assess and continually improve processes, services and product quality, health, safety and environment through the implementation of effective management system.
- Environment protecting by minimizing adverse environmental impact through pollution, prevention, reduction of natural resource consumption, emissions, reduction and recycling of waste.
- Enhances QHSE performance on issues relevant to our stakeholders that are of global concern and on which we can have an impact and share with them our knowledge of successful QHSE programs and initiatives.
- Regularly review the effectiveness of the QHSE management system for continual improvement
- Encourages effective participation and consultation of our employees.

This policy is available to all relevant interested parties and communicated within the organization.

Accordingly, Transgulf Readymix will operate its business through the implementation of Integrated (QHSE) Management System which influences the use of latest technology, best commercial practice, compliance to applicable legal requirements and continual improvement to attain company established objectives and thus ensuring a safe and sustainable pathway for the company's future growth.

This Policy shall be regularly reviewed to ensure ongoing suitability.
